kurumi Czechia s.r.o. is a licenced recruitment agency specialising in the procurement of overseas labour.

In Europe we recruit people to work for companies from outside the EU from areas such as Asia and Eastern Europe. Our recruitment and the subsequent employment must conform with the legal systems of both countries (receiving and deploying) and moreover must be ethical in line with International Labour Organisation guidelines.

In Australia our new project is to boost Australian companies seeking labour from abroad in facilitating foreign workers and backpackers.

Our core belief is that with free movement of labour everybody wins, the companies seeking reliable / highly specialised staff, the workers as well as governments.
